Assessment Criteria

Overview

Results in this unit are determined by the number of tasks of each level that you successfully complete. This is designed to help you achieve the best result possible, with lots of support to help you learn. This document outlines the assessment criteria.

Learning and the Assessment Process

Effective learning requires you to actively try to understand the topics being covered. The tasks that we provide can help you develop your understanding but do require you to think about how the tasks relate to the underlying concepts and practices. One way that we can assist you with tasks is to provide you with feedback on your progress, and to answer your questions about aspects you are unsure of.

Each week we will help you learn by introducing topics, working through tasks with you, providing resources and tasks you can complete. Using these resources, you can develop your understanding. In this process you will create pieces of work that demonstrate your understanding. You are expected to submit these to us so that we can help ensure that you have understood each topic correctly. The feedback we provide should then help you develop your understanding, while also providing us with ideas we can use to improve the way the unit is delivered.

Throughout the semester your work is submitted, only submissions marked as “Complete” will count towards your final mark. You will receive feedback from your tutor about the quality of your work.

Choosing your Target Grade

The assessment structure in this unit is designed to allow you to choose your target grade, and then only complete the tasks required to gain that grade. Please refer to the table Assessment Structure Overview to see the requirements for each grade.

Categories of work to be done

The contents of the unit have been broken in 4 main categories

Pass Tasks	Core tasks required to demonstrate the unit's learning outcomes. There are 5 Pass Tasks
Credit Tasks	Extend beyond the core material to help you better understand the concepts associated with the unit. These tasks have some guidance but will require you to develop a deeper understanding than the Pass Tasks.
Distinction Tasks	Provide an opportunity for you to demonstrate that you have a good understanding of all the topics associated with the unit. There is little guidance with these tasks in order for you to have more control over how you solve these problems. <u>To qualify for this task you must pass Test 1 & 2 on your first attempt, and Test 3 pass.</u>
High Distinction Tasks	Go beyond the material covered in the unit, allowing you to demonstrate that you can use what you have learnt to explore associated concepts as well as explain the concepts to others. <u>To qualify for this task you must pass Test 1 & 2 on your first attempt, Test 3 passed.</u>

Tests

Test 1 & Test 2 must be completed successfully (50%) to pass this unit. You will have three attempts to pass each of these tests.

Test 3 is only for students aiming for higher grades (Distinction & High Distinction). **To qualify for Test 3 you must have passed Test 1 & Test 2 on your first attempt.**

Learning Summary Report (LSR)

The LSR has three parts. All students must successfully complete Part 1. Students targeting a Distinction must successfully complete Parts 1 & 2. Students targeting a High Distinction must successfully complete Parts 1, 2, & 3.

Failing to submit or successfully complete LSR Part 1 will result in a Fail for the unit regardless of any other tasks or tests successfully completed.

Marking

Test 1 & Test 2 are marked out of 20, you must score a minimum of 10 marks to successfully complete each test.

Test 3 is marked out of 5, you must score a minimum of 2.5 marks to successfully complete the test.

Pass & Credit Tasks will be marked as Complete or Incomplete. These tasks need to demonstrate understanding in all significant areas to be marked Complete. Feedback will be provided on any significant areas showing lack of understanding.

Distinction and High Distinction Tasks will be marked out of 100. You must score a minimum of 50 marks to successfully complete these tasks.

Learning Summary Report will be marked as follows:

Mark	Criteria
0	Part 1 incomplete
1	Part 1 complete
2	Parts 1 & 2 complete
3	Parts 1, 2, & 3 complete

Late Submission of Tasks

Tasks submitted after the published Due Date will be marked incomplete unless an extension has been granted in writing prior to the due date.

Resubmission

Pass tasks 1 – 4 that were submitted by the due date but are marked incomplete may be resubmitted. Resubmission of these tasks must be within seven (7) days of the release of the task grade. Pass Task 5 can not be resubmitted.

Note: Any sub-task marked “Not Attempted” can not be included in your resubmission.

No other tasks can be resubmitted.

Fail Grade

Any one of the following will result in a FAIL result

- A Student has **not** submitted a **Satisfactory** Learning Summary Report (LSR) Part 1.
- **Fewer** than 4 Pass Tasks are marked as **Complete**
- One or more on-line Tests 1 or Test 2 have not achieved a score of at least 50% after three available attempts.
